LITHUANIAN FAMILY MOVEMENT

STRONG FAMILY- STRONG STATE

www.seimusajudis.lt

We come out on to the road of renewal!

Rhetorical questions best illustrate the situation we are in. How did the creation of independent Lithuania happen, in which nationals have no direct influence on our country's course? When has it started, how has this silent dictatorship gone under the radar? How did we not notice the process of silent privatization of our Republic? We have again arrived at a place where open minded Lithuanians are being aggressively persecuted and named as ‚marginals' for their views and beliefs, confirming we are rapidly losing freedom of speech in Lithuania. Unsurprisingly, this produces feelings of overwhelming disappointment, general negativity and disbelief among the population, as well as serious doubts in what we do, in our Country and its future.

It feels we are being yet again forcefully indoctrinated into communism-like One Truth Ideology, which is ever in our memories, having been occupied by the soviets for a period of dark 50 years. It is now clear Lithuania is forcefully under the system, which was designed to work for a few political so-called parties' and their leaders' eternal life in our domestic politics, a system under which democracy is only imitated and democratic processes manipulated with the obvious goal being staying in power by all means, resulting in denied progress of Lithuania as a Democracy, as a Society and as a Country.

Under the guise of Pandemic, sadly but clearly, the worrying signs of direct dictatorship - first steps toward tyranny have been observed. Scarily, the traditional family values, as well as our cherished through a Millennia ways of life and traditions have been under attack in Lithuania. We feel the critical line has been reached in this attack and we cannot idly stand under the tree anymore. The majority of Lithuanians have become increasingly worried not only by attacks on traditional family values, but the destiny of the whole Country. Throughout the lives of every human and every Country there comes a breaking-point moment, periodically arriving at the crossroads where the crucial decisions made are critical to society and the path chosen determine Country's future.

Not only for Lithuanians and our Fatherland, but the whole civilization of Christianity is being tested for our determination to thrive and our will to survive. For all our actions and inaction of Lithuania's future being determined at this very moment, we are going to have to answer to God, to our Motherland, our children and grandchildren.

The destroyers of our Country say there is no coming back to traditional values based order in Lithuania, yet they do not understand what power lies in the loving hearts of people defending the Fatherland, and their families. It is time to reign back the power to the people from a few financial interest groups, who push predatory privatization and it now reached even the fundamentals, critically important strategic sectors in Lithuania and who continue to very aggressively make our Republic their own backyard playing field and personal bank.

Let us all join the Movement of Lithuanian Families - the journey has begun and we will do our utmost to get back to lies-free life, free of tyrannical ways, free of dictatorial tendencies and the disrespect of a human being, we will seek the return of now trampled on human dignity and love, we will defend our families, our over 1000 years history, traditions and our Republic's future.

We sincerely believe we will not be the only ones on this path, having identified and acknowledged the inevitability of differences in opinions we will not be swayed or distracted by secondary issues and other distractions, as we are focused on fundamentals. This will surely be a long and exhausting road to resumption/renewal but we will see it through and we will recapture a free, democratic Lithuania of our ancestors, which will thrive and last through ages.

They are going to have to hear and listen to us!

Leader of the movement of Lithuanian Families Movement,
Raimondas Grinevicius.

Families of Lithuania Movement - non-partisan association of and by Lithuanians, formed as a response to an ongoing Governments' assault on Constitutionally-provided concept of family and Governments' display of ever more vicious attacks on our historically traditional values. We are uniting people for a purpose of stopping this forceful indoctrination of infamous ‚LGTV+' ideology and Gender dictatorship. The Parliament is being observed of trying to ratify Istanbul convention in a hastened manner, which would directly undercut the Constitution of Lithuania and impose on society same-sex marriages, the ‚sexualization' of children in their early ages, as well as expose kids to transgender propaganda in curriculums at schools. It is now clear that so called Partnership law is being imposed against the vast majority of citizens' will and it seems we, deeply worried about this marginal minority dictatorship would be silenced, persecuted and even prosecuted under the ‚Hate Speech' laws, which are soon to be adopted by current government and applied on people, who voice their own informed opinions on these subjects of vital importance.

We have begun with the strong request to recall the leading person of Parliaments' Human Rights Committee T. V. Raskevicius, who uses his powers only to advance ‚LGHD+' interests. We have gathered as many as 330 000 signatures, delivered them to our Parliaments' chairman Viktorija Cmilyte-Nilsen only to receive the denial to even acknowledge the will of Lithuanian people. However, the same chairman positively evaluated and accepted the half empty signature boxes, gathered as a counter-initiative to ours by one so called journalist, funded by G. Soros, adding insult to an injury.

The patience has run out and the Lithuanians have risen. On May 15th The **Great Families' Defense Rally was organized**, under which huge columns of cars, decorated with national flags pulled towards Capital out of every corner of Lithuania. Despite imposed covid quarantine, Lithuanians along churches and other public spaces in cities and towns accompanied those protesting, we saw people on every main road waving and expressing their support to those on their way to Vilnius in this massive protest rally. It is believed to have amassed over half a million Lithuanians in support to the Movement. The main event at Vilnius Vingis Park saw a **crowd of 20 000 declaring their demands to our political leadership.**

„The Great Families' Defense Rally has been backed by majority of Lithuanians abroad."

We are proud to say the government felt the pressure and therefore laws of Istanbul Convention, Same Sex Marriages and Hate Speech were not imposed on us in 2021, however not cancelled but moved to a later date for consideration. Thus, as had been promised at the Vingis' Park Rally, one month later another massive protest was organized. **Vilnius municipality, led by mayor R. Simasius, denied our request to protest on the premises of our Parliament. Despite mayor's refusal to follow the main Law of the land however, the protest happened on June 15-17th. We addressed the Court at the time on mayor's probable abuse of power, the Court eventually concluded the municipality's denial illegal and cancelled mayor's decision.**

Norwegian Lithuanians, May 15th, 2021.

Out of every governmental institutions only the Institute of Presidency responded positively to our calls and pleas. In his address at the Vingis Park rally our President reassured the concerned crowd on their worries and confirmed that if and when inserting these alien laws The Constitution of Lithuania will not be violated. **The representative of our President was present at our rally on June 17th and gave a speech to protesters.** His participation and reaction to people's worries are completely normal in any democratic society, yet for his actions in regards to our Movement the President received unseen assault on his personality, even credibility attacks by our systemic media and even humiliation and pure hate by the LGBT individuals on social media towards the President of Lithuania, which was unprecedented and indeed created a precedent of the allowance/normalization of harassment of the Institution of Presidency, further confirming that nothing is out of bounds for the LGBT radicals.

We are seeking to find and establish relations, to unite around societal, Municipal and Parliamentary powers in EU. We have recently announced a petition in expressing our unwavering support to Hungary in their fight for their rights, which was signed by tens of thousands of Lithuanians in mere few days. In the name all rational society we have sent it to Hungarian Parliament as a token of solidarity with Hungary.

Reacting to invading illegal migrants in summer of 2021 on the border with Belarus we have conducted a „Protect the Border of Lithuania' rally with the help and participation of local community. We have declared a demand to immediately ensure Lithuania's territorial integrity, abandon the overtaken schools and deport illegal invaders to their countries of origin.

On August 7th in a municipality of Kalvarija, in spite of pouring rain our movement gathered plenty of people, judging by the armbands distributed among protesters there were no less than 500 social activists, protesting the issue. We are happy to have united many well known public figures under our flag. After the speeches and declarations we had a regional competition of checkers, rope challenge, golf and a talent night, concluding with awarding winners as well as participants.

Later that day we have officially supplemented and reiterated Families of Lithuania Movement's guidelines and goals, the protest culminating with an impressive firework under the newly created movement's anthem ‚Kelkis, Lietuva', which would translate to ‚Rise up, Lithuania' by Romas Dambrauskas, video of which you can find here: https://www.youtube.com/watch?v=aTHAYEyNyWI

FAMILIES OF LITHUANIA MOVEMENT PROGRAM:

Established at a rally on 7th of August, 2021.

Natural , traditional family - fundamental to survival of any community and any commonwealth, ensuring the continuation of any nation and the humanity itself.

The rights and powers of families may not be overtaken nor cancelled by a ruling majority ever under the Constitution of Republic of Lithuania. On the contrary - the State has to help and assist families by enabling the necessary environment and conditions, under which families would thrive and expand. The opposite is observable today, government must not infringe neither attempt to limit the autonomy of our fundamental rights in the way we bring up our children.

As mentioned, it has been observed and documented that the current administration in Parliament deepen the invasion into personal space and into every aspect of one's life, obfuscating their aggressive actions with abstract law theories and disguised by term ‚common good'. The process of a forceful insertion of clearly unconstitutional laws is underway, laws like Istanbul Convention and Same Sex marriage, which would open the way to same sex marriages, the installation of gender ideology and adoption. All this is happening with the attack on Freedom of Speech and our ability to express our will. While applying institutional coercive actions on Lithuanians, the worrying process of insertion of ‚new normal' is apparent, the reality where freedoms go along with zero accountability and rights with no responsibility nor duties, such reality is being imposed on us, they are forcing us to accept it without discussion.

All the so called mass media propaganda and governmental powers are being abused by the temporary rulers to attack and destroy our national traditions, historical and traditional Christian/Catholic family values. The unacceptable to society norms are being forced down our throats, which will molest and pervert our children, youth and adults alike. The fundamental human rights of citizens, granted by The Constitution of Lithuania are violated, which inevitably leads to a total collapse of moral norms and the destruction of natural and healthy family perception and the disintegration of societal and educational model.

All this, in turn, manifest a real threat to the very existence of Republic, the common good of its citizens and fundamental human rights. In the name of family, nation and the future of Lithuania WE ARE UNITING.

I. MISSION

Families of Lithuania Movement - not partisan, public societal movement.

This movement is on a mission to unite and concentrate citizens in protecting our Constitution. We are to ensure defense of our fundamental rights. The clearly defined ‚Family Institute' definition is the foundation of Lithuania, article38 under The Constitution of Republic of Lithuania. Parents must continue to be the ones responsible for the upbringing of their children, while family is defined as a mother and a father, defined as a woman and a man accordingly, as well as children's right to have a family at all.

As a nation, as a family and as to our motherland being able to continue to exist - Lithuania needs to be strong as a political subject in the World, which is not possible with our current dysfunctional democracy. We undeniably need to reconsider the probable consequences of actions of those currently imitating and manipulating our democratic traditions and rules, most visibly acts by various financial interest groups over the last 10 years. We have to reclaim

the powers of Republic of Lithuania to Lithuanian people, article2 under our Constitution: The Sovereign is the Nation. Created and fulfilled by citizens of Republic of Lithuania.

Lithuania has to become a bureaucratic anarchy-free place, a partisan dictatorship-free place. A place with no journalism-free media, free of ideological indoctrination type of media and most importantly free of lies. We need to make it a place with no social inequality as Lithuania is one big family, where everyone is trying to peacefully and happily coexist together, ensuring all have the means to prosper. In order to achieve it we have to stop this family misinterpretation crisis, reduce the sexual minorities' ideological terror and the sexualization of children, directly aimed at our kids.

We need to work on stopping this serious aggression by GENDER ideology, an indoctrination conducted primarily by radical sexual minorities, which is alien to our one thousand 1000years long historical traditions and values and contrary to the morals under Christianity, based by Decalogue and human dignity.

It is very much needed to create and implement the guidelines of Family strengthening in and by every aspect of life in Lithuania. In order to achieve that, we need to first recognize and acknowledge the ever increasing censure of free-thought in Lithuania, an attack on our Freedom of Speech. Real censorship and silencing is happening under the ‚Hate Speech' laws, used as a smoke screen, false equivalence, misrepresentations, manipulations and any other PR tactics. It is now confirmed only about 20% of Lithuanians, or only 1 of 5 trust the local so-called Mass Media, which is apparently funded by ultra radical Political Left. Therefore, now infamous‚Leftists' are leading this grave assault on Lithuania and its people, and we do remember what exactly Communism is and brings.

II. VISION

- We are determined to defend family values and the order established by the Constitution of Republic of Lithuania.
- Strengthen defenses of families, which consist of a Mother, a Father and a Child. Immediately take action in stopping genderist propaganda and any attempts to equate same sex marriages with the definition of family as it stands in The Constitution.
- To protect Lithuania's children, youth, families and schools from the forceful sexual minorities' indoctrination, which directly contradicts traditional values and norms that are constitutionally established.
- Do outmost to protect Lithuania from acceptance of pornography and the justification of sex crimes and abortions, protect families form marginal minorities' dictatorship, which would inevitably lead to changes to the definition of family under The Constitution, which is clearly defined to consist of a mother and a father, a woman and a man accordingly.

- The Republic of Lithuania has to be protected from anti constitutional actions, damaging the fundamental rights and freedoms of citizens by any administration, current and in the future. Actions, such as attempts to install de facto dictatorship under the pretext of Covid19 and the cruel segregation of Lithuanians, limiting their Civil rights, based on whether one is vaccinated or not, violating solely personal rights to our bodies, the conducted persecution and even prosecution, resulting in denied right to work and it is obviously unconstitutional. Such abuse of power is a threat to all and has to be stopped immediately.
- The territorial integrity has to be restored by any and all means available, and stay untouched. Illegal entry of Lithuania must be stopped, those caught crossing our border have to be kept away from inhabited areas until deportation to their countries of origin, thus protecting families from any and all risks and dangers to locals.
- Systemic, ever deepening crisis in Lithuania is apparent and undeniable. None of critically important issues are being solved, social exclusion is ever increasing as well as financial inequality, citizens are still forced to leave, the tensions and general disbelief and disappointment in society are rising. Ruling political class have neither purposeful ideas, nor the personalities to fulfill them if they had any.
- There has to be discussions in society on these key issues of Lithuania's renewal. Political system has to be reformed by creating mechanisms that would ensure self-governance of communities in municipalities, elections of law enforcement officers and any other officials of governmental institutions must be direct and democratic. Ensuring the accountability of one's actions is key. The liability of persons of damages done to the Country must be personal, the accountability for everyone's actions needs to be pursued and prosecuted under the law of the land.

III.TASKS and GOALS

- Immediately stop all the politically-correct officials, funded to push homosexuals and transgender encouragement in schools, all the LGBT activists and governmental institutions, who are conducting this insertion of alien ideology from our tax payer money.
- To fight current WHO unelected officials' guidelines, which are based by one-sided partisan GENDER ideology and make sure no children are exposed to sexualization in their curriculum at schools. We will defend our children and we will make sure that parents and educators transfer the knowledge of the beauty of procreation and the joy of family creation responsibly.
- In all the spheres of our economic, political and community life we have to immediately cease the appliance of so called cultural and politically-correct pressure on everyone, which is funded by foreign organizations and pressure applied even through our governmental institutions.
- Wholeheartedly support teachers, municipal and governmental officials, businesses and people of all and any professions, who would fight this ideological pressure and genderist propaganda.
- Ensuring the stoppage of cultural and educational programs that are unacceptable to a vast majority of Lithuanians. These programs are disguised and being forcefully installed under the terms such as Discrimination, Human Rights, Hate Speech, Tolerance, Fighting Violence, etc. as well slogans used by LGBT activists, designed to normalize the unacceptable and pervert children, youth and adults by drowning them in propaganda.
- Not allow the insertion of GENDER ideology into our Laws, this would violate the basic constitutional rights and would undeniably lead to a total erosion of moral values. The attempts to destroy the communities, attacks on healthy and natural family model directly threatens the continued existence of Lithuania.
- To limit the influence of public institutions and organizations, which are acting against the National Interests by conducting the erroneous and damaging installation of alien ideology into our media, education and public life.
- Start controlling the funding of marginal sexual minorities and create means to prevent the indoctrination of people and State, directly violating the constitutional rights of other communities in our society.
- To create provisions and guidelines on governmental level, enabling the protection of parents and children from discriminative sexual education, the encouragement of same sex partnership and deny the possibility to adopt children by such partnerships.
- To cancel the ongoing encouragement of migration, still conducted by EU leadership, which is designed to change the demographics of EU countries by allowing the so called Third World countries' citizens to migrate into Europe, using the mandatory distribution of migrants among EU countries on fixed quotas.
- To recall the provided to Parliament Presidential Decree, signed by The President of Lithuania on 2018-06-12 to ratify ET convention on 'domestic violence and violence against women' NR. 1K-1315. To not allow the Parliamentary consideration of Istanbul Convention and immediately cross the question out of schedule.

- To revoke the legislation, registered in Parliament on 2018 June 12th, NR.XIIIP-2315 „On ratification of Europe Commision's convention on violence prevention against women and domestic violence" and remove this legislation from register system.
- To not allow the Parliamentary consideration on legislation of Partnership, which directly violates article38 of The Constitution and remove it from Parliament's register system.
- To prevent discussions on and remove the legislation from registry of The Criminal Code article259, as well as Civil Code article71 and the supplement article 483 (1) legislation, which is designed to legalize narcotics in Lithuania.
- To supplement the 1st part of Article38 of Constitution in such matter: „ The natural, biological Family Institute is the foundation of the survival of Lithuania, our families and communities".
- To add to 3rd part of article38 of Constitution: „ The marriage can only be between a woman and a man, in free will. The mother of children is a woman, while father is a man."
- To supplement article39 by: „The State defends the rights of children identity under natural, biological gender and ensures education under natural identity based values."

- To reform the Child Protection System and replace erroneous legislation, violating the rights of families and The Constitution of Lithuania.
- To change the guidelines of Criminal Code of Lithuanian Republic in applying strongest possible penalties on individuals for severe harm inflicted against minors, especially sexual crimes and install zero tolerance to pedophilia, as well as crimes on minors by officials in the sphere of adoption and other child protection facilities and institutions.
- The Parliamentary consideration and the supplementation of Civil Code articles 224 and 259 (Family Humiliation) legislation must reach Parliament to a final vote. This legislation is blocked by liberal forces since 2014.
- The State must create and ensure the conditions and environment of responsible motherhood and parenthood, the State must show respect to life and human dignity in any stage of one's life. Young families must be provided with all the help, security and encouragement to have more children, as many as they like and to raise human beings in a dynamic and loving society.
- To provide support to societal organizations who help persons in critical situations, such as elderly care, crisis pregnancy, etc. Create mechanisms in ensuring the education of sexuality and planned parenthood, which would be education based on mutual respect and life preservation.
- To solve the ever increasing problems of our grandmothers and grandfathers - to seek dignified pensions, ensuring best possible access to healthcare and social services, provide opportunities of staying in work market and of voluntary activities to elderly.

TO RECLAIM DEMOCRACY AND LITHUANIA TO CITIZENS

- The now existing political parties' proportional list-system is disbanded. Elected officials of all levels are elected for not longer than 2 terms in a row.
- Equal opportunities must be provided to individuals as to political campaigns, societal movements, political organizations and parties or persons registered as members of political campaigns - every citizen has the right to raise his candidacy to be elected to Parliament and/or Municipality, under the established amount of signatures needed and collected.
- The number of legislators is reduced and fixed to 101 Members of Parliament.
- Changes to Political Parties funding system. All parties and organizations, registered in elections, can finance election only by finances acquired from their membership fees and, under the law, funding is possible by citizens who support their cause, as well as funding by a part of citizens income taxation (GPM) regulations.
- Political parties must declare their finances monthly. Other organizations, registered as members of political campaigns have to provide declarations of sources of finances, income and expenditures for the period starting on the day of their establishment.
- Budget funds, which are now designated for political parties and would be saved - must be used to level the political playing field and distributed to each and every candidate for their campaigns equally. Those violating the rules would be immediately removed from Elections.
- There has to be regulations under strict implementation under the law for a personal liability and responsibility of politicians, representing the will of the people. There needs to be regulations, an agreed upon number of signatures collected in any county on the subject of voting and possible cancellation of a politician before the end of his term.
- The legislative right of direct citizen participation is reduced from 50000 to 20000.
- The national Referendum right of citizens' signatures needed is reduced from 300000 to 100000.
- Upon becoming Prime Minister or a member of PM's ruling team, a legislator automatically loses the member of Parliament's mandate. Members of Parliament are elected on fixed terms for their term of office and as such, just like people on any work contract, do not receive compensation upon departure from their office.
- To supplement article58 in such matter: „Premature Parliamentary Elections conducted or not, based on citizen referendum results."
- The right of citizens to control the Court System is ensured. No less than 2/3 of all the ethics and propriety committee members have to consist form directly elected officials.
- The Judges in counties, as well as Prosecutor's office officials are elected in direct citizen elections from candidates applying having to have law degree.
- The Institute of Court counselors is created.
- Regulated under the Law, in public corruption and criminal financial case situations, the Institute of Jury Trial is established.
- The State Inspector is elected by direct citizen voting.
- Political Corruption Law is created. No limitation period applied to corruption-financial felonies.
- The Installment of Special Counsel Institute must be independent and its leader appointed by direct Elections.

- illegal surveillance by law enforcement have to be investigated, the perpetrators and abusers charged and illegally collected data destroyed, if any.
- Immediately expose lists of the collaborators with KGB and other repressive structures.
- Constitutional Court, after becoming politically biased and having given itself right to Legislate, as a result misrepresented the clear definition of Family in The Constitution article38, thus needs to be dissolved and its duties transferred to The Supreme Court of Lithuania.
- Mayors and municipality leaders are to be elected in direct Elections. Municipalities have to have their own income sources, which they would be able to freely distribute in a decentralized manner.
- All the illegal leaks of Law Enforcement information to the media need to be investigated, the perpetrators prosecuted and charged, if any.
- The biased behavior of National Broadcaster, funded by taxpayer money, resulting in unequal representation and pushing one-sided ideas and opinions into mainstream, while silencing others' ideas that are not forbidden by the law is to be recognized as political corruption and influence trafficking.
- Establishment of a mandatory National Broadcaster's air time for parliamentary and non-parliamentary political parties, as well as for public organizations weekly.
- The establishment of a principle of informing on the incoming discussion on the topics of key importance to society. This would go under the National radio and Television Population Information Act, focused on publicly voicing difference of opinions and the participants of such discussions to be informed in advance, if requested.
- Following Estonia's example, the public officers position of Media Inspector at National Broadcaster is established, (Media ombudsman) which would be led by directly elected, independent of any political organs.
- Under the National Broadcaster (LRT) and for the purposes of good journalism practices maintained as well as society's complaints investigation - the establishment of management is installed.
- Governmental Institutions have to provide information on funded media and of people functioning as media outlets, publicly. All the shows, articles and other public information activities have to be disclosed providing name of the client, order number, date and money paid.
- Publicly discussed and eventually accepted National middle-class resurrection program.
- Approved under the Law and supported and encouraged by public small, family and medium businesses.
- Accepted and implemented measures on fighting monopolies and oligarchy.
- Immediately stop deforestation process in Lithuania, which makes forests mono cultural commercial tree plantations, deleting biodiversity and Lithuanian woods as recreational space and historic living environment of ours is being destroyed. We have inherited our nature and woods from our ancestors. Lithuania's nature has to stay untouched for ever.

OUR MOVEMENT:

- Unites all citizens of Republic of Lithuania who value traditional family, marriage between a man and a woman as a key foundation of a country and society. as well as those seeking social justice, rationality and honesty in Lithuania.
- Engineers and renders ideas, recommending them to governmental, municipal offices and other institutions in relation to legislature and legislation improvements.
- Arranges town halls and encourages discussions, seminars, conferences and coaching, in relation with Movement's goals and activities.
- Recruits experts and professionals of all professions for activities in municipal and governmental institutions, delegates the representatives of our Movement to participate in Lithuania's democratic processes.
- Raises funds for Movement's organizational costs and project realization.
- Announces petitions, organizes rallies, protest actions in society's response to blatant disregard to Constitution, families and to principles of democratic society.
- Cooperates and coordinates activities locally and internationally, who stand for traditional family values and democracy, against Globalism, freedoms of every nation and the dictatorship of political and international corporations, destroying the independence of every Country wanting to keep national identity.
- Supports those agreeing to and inspired with Movement's goals and helps elect candidates to Municipal, Parliament, Presidency and EU parliament. Cooperates with prospects and inspects if National Interests of Lithuania are followed up, as well as those of families and society's interests.
- Establishes organizational Movement's local units country-wide, rallies citizens in businesses and local communities in general.
- Unites non-governmental institutions, individuals, members of political parties from every region into locally functioning councils, which cooperate in advancing Movement's goals locally and in a whole Republic.
- Initiates creation of Movement's Coordination Council, brings together powers of all political representatives, communities and individuals agreeing with our goals, Council would function as command center of those fighting for defense of families, our Constitution and Republic's renewal.

Let us look for things uniting us - not things alienating us. Family, Constitution and Republic of Lithuania will be defended.

On the 10th of September at the premises of Vilnius Cathedral, a protest rally was organized by association ‚Movement of Lithuanian Families‘, a rally against policies pushed by parliamentary majority. Despite protesting on usual working day, the protest brought together 13000 to 15000 people from all Lithuania. Distance did not stop people from coming and expressing their will, as well as to hear organizers‘ agenda.

The protest rally on 10 September showed -

Lithuania is waking up -

The Parliament and the government -

barricading themselves from the People

On November 31st, 2021 in Kaunas, a procession of ‚ghosts' happened on Halloween, a satiric and theatric action, directed to stress the professional unprofessionalism of our government, with the main ‚ghost' faces being both of infamous Landsbergis, PM Simonyte, Dulkys and others. At the end of this march, a member of Council of our Movement Algimantas Rusteika read a festive greeting to locals on behalf of Families of Lithuania Movement. ‚Ghost' field post was operating, each citizen could write and send a personal greeting to their most beloved ‚ghost'. Procession also had ‚Funeral March' by Frederick Chopin playing, accompanied by government, ghosts' most infamous phrases, which are now ‚Folklore'.

FLM Christmas tour through Lithuania, 2021.

On 6th of December in 2021, a bus under the banner of our Movement left for a tour through municipalities of Lithuania. With a festive program, Christmas gifts to kids and of course - Santa Claus. Presents like gift cards, chocolate candy, books, sets of pencils and other were provided by sponsors of our Movement., while the costs of the bus, driver and other expenditures were personal. Most of municipalities saw no problem in providing permits for events at each town center Christmas Tree. Some, however, refused us permits - we had to organize events with the help of local activists. Families of Lithuania Movement Christmas Tour lasted 6th of December to 28th of December, around 50 municipalities were visited, we distributed about 5000 chocolate candies alone.

„The Great Family Defense Rally 2022“
happened and it was a success!

The Great Family Defense March, becoming a tradition, happened on 15th of May, 2022. In spite of institutional pressure and attempts to block the Rally, accompanied by total neglect by The Media - 4.500 to 5000 people out of every corner of Lithuania participated in an event at Jadagonys village near Kaunas.

The traffic caused by cars was few kilometers long - they were greeted with local country musicians and bards, smiles shone on people's faces.

Many families came with children - playground infrastructure was prepared for them, lines ensued at ice cream trucks, fresh drinks and snacks sections were ready to not leave anyone hungry nor thirsty.

This year nature helped our traditional, natural family rally-protest, too - it was a sunny and long day, speakers and singers from all regions singing their songs and sharing their opinions on Government's activities. They were many indeed.

Lithuanians abroad gave their wishes on a huge screen, as well as the greetings from International Youth Union. One of the members spoke at the event on scene.

The Rally was streamed live and viewed by 40 000 live.

The Resolution was read at the end of the event and people chanted „Thank You' upon conclusion.

The streamed video can be found here: https://www.youtube.com/watch?v=LrcbyyOe2ts

ORDO LURIS Contacts have been established with one of the most influential European organizations for the defense of traditional, national and Christian values - the Institute of Legal Culture „Ordo Iuris", which has UNO expert status. Met with the dean and colleagues of Collegium Intermarium, the university that started operating in Warsaw in 2021.

The place of the Lithuanian family movement in the umbrella structure of organizations protecting the rights of families in European countries, as well as relations with organizations of other countries, were discussed. During the meeting, joint activities were agreed upon, as well as guidelines and goals for further actions.

In spite of the rain that poured all day and which significantly hindered the installation of the equipment and its' timely tuning on the 21 of June, 2022, the rally organized by the Lithuanian Family **Association at the Parliament "Stop the Bulldozer of the Governors"** took place and was really meaningful.

A number of representatives of opposition party factions of the Parliament spoke at the meeting and told about the situation in the country and named why it is like that.

Also, despite the rain, the ruling Homeland Union – Lithuanian Christian Democrats party representative Paulius Saudargas came to speak and was showered with questions and shouts of dissatisfaction by the participants of the rally.

Several public organizations also spoke out, as well as the former Commander of the Army, General Valdas Tutkus. And not a single good word was said during the entire rally about the political majority led by the abovementioned party and the Government, i.e. about their work "for the good of the state".

Families of Lithuanian Movement participated in the establishment of Eastern and

Central European pro-family organizations network in Prague

The delegates of the Families of Lithuania Movement (FLM) – a member of the Council Artūras Orlauskas and the international affairs officer Tomas Senūta participated in the conference on the topic "Europe for family" held in Prague on November 28 – 30, 2022 of ten organizations from Central and Eastern Europe defending interests of families, human rights and the rule of law.

There was also a meeting with two international networks representing the interests of this region as well. The event took place in the Archdiocese of the Catholic Church of Prague next to the Presidential palace. Each country was represented by one organization, a total of 23 delegates participated. The event was organized by the Czech organization Aliance pro rodinu (Alliance for the Family).

Reports were read by the aforementioned networks representing the interests and values of organizations of this type in the governing institutions of the European Union, representatives from Brussels and Vienna office in London, representative of one US organization and professors from the Czech Republic (one of them works with the European Council).

Two presentations were also delivered by the famous professor of sociology from Texas University in Austin - Mark Regnerus.

On October 22, 2022 action „Let's defend the Constitution of the Republic of Lithuania"

took place in Vilnius, Cathedral Square. Signatories of the Act of Independence, leaders of opposition parties, representatives of trade unions participated. It was published conclusion that the Government, which does not represent the interests of the state and the majority of its citizens, has lost its moral and political right to act and must be dismissed.

An investigation into the violation of citizens' rights during the pandemic, the criminally increased electricity prices and the illegal privatization of the electricity company „Ignitis" was demanded. The consideration of the law on same-sex partnerships must be stopped immediately, and the representatives of Lithuania in the European Union must be obliged to vote against the directive, which envisages the forced entry into force of the Istanbul Convention.

On the 4-5 of May, 2023 **the international Conservative Political Action Conference** (CPAC Hungary 2023) took place in Budapest.
